- Convenient Aerosol Application
- Bactericidal & Fungicidal
- Virucidal-kills Staph, TB, Herpes, HIV & Athletes Foot Fungus
- Fine Mist & Pleasant Fragrance
- Creates an Outstanding Deodorant and Space Spray
- EPA Registered Phenolic-Base
- Disinfects any Hard, Non-Porous Surface
- 20 oz Can

TYPICAL PROPERTIES

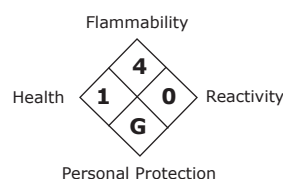

- Boiling Point: **173 F**
- Vapor Pressure: **N/A**
- Volatility: **N/A**
- Solubility: **Yes**
- Specific Gravity: **0.88**
- Vapor Density: **N/A**
- pH: **8.5**
- Evaporation Rate: **Slower than Ether**
- Physical Description: **Slightly cloudy, colorless spray/mist w/pleasant fragrance**

SAFETY CAUTIONS

- Store out of reach of children.
- Exposure to temperatures above 120 F may cause bursting.
- Do not use or store near heat, sparks or open flame.
- Do not puncture or incinerate container.
- Do not use in or on electrical equipment.
- Do not get in eyes, on skin or on clothing.
- Refer to MSDS for additional safety information.

HMIS RATINGS

ABSOLUTE

AEROSOL

DESCRIPTION:

Kills most dangerous Staphylococcus aureus; Herpes simple virus, Type II; and Mycobacterium tuberculosis var.bovis on environmental surfaces. Disinfects and controls mold and mildew on hard, nonporous surfaces such as bathroom fixtures, empty garbage cans and garbage pails, furniture in sick rooms and nurseries, fishing equipment such as skate shoes and bowling shoes. Aids in the control of athlete's foot fungi (Tricophyton mentagrophytes) on environmental surfaces. Controls Staphylococcus aureus and Salmonella cholerasuis. Spray in shower stalls, shoe and walking areas. Inactivates these agents: HIV-1; Herpes Simplex Type II; Influenza A2/Hong Kong, on hard, nonporous, inanimate surfaces.

USED IN: Hospitals and other medical, industrial, institutional, commercial and residential facilities.

DIRECTIONS:

GENERAL: Hold container upright, shake occasionally during use.

FOR DISINFECTING, mildew control, and deodorizing of clear surfaces; Spray from 6 to 8 inches until thoroughly wet. For disinfection, allow surface to remain undistributed for at least 10 minutes before wiping. Repeat treatment weekly to maintain effective control of mildew.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING AGAINST HIV-1 (AIDS VIRUS) ON SURFACES/OBJECTS SOILED WITH BLOOD/BODILY FLUIDS. Wear disposable gloves, gowns, masks, or eye coverings when handling items soiled with blood/bodily fluids. Blood and other bodily fluids must be thoroughly cleaned from surface and objects before application of this disinfectant. Blood and other bodily fluids and cleansing materials removed from surface/objects should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

FOR TUBERCULOCIDAL USE: Remove heavy soil and thoroughly clean surfaces prior to application of this product. Spray from 6 to 8 inches until thoroughly wet. Allow surface to remain undisturbed for at least 10 minutes at 20F before wiping.
