HMIS RATINGS

BE-GONE

Aerosol

DESCRIPTION:

BE-GONE is a ready-to-use stable residual insecticide for use outdoors, in homes and non-food areas of food and feed processing establishments, kennels, commercial buildings, warehouses, theaters, office buildings, schools, motels and hotels. It is effective in controlling fleas, brown dog ticks and lice on premises and on dogs. BE-GONE also controls ticks which may cause Lyme disease on premises. This amazing product provides 60-day control of cockroaches, fleas and stored product pests.

DIRECTIONS:

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food/feed should be covered or removed. Non food/feed areas are areas such as garbage rooms, lavatories, floor drains(to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage(after canning or bottling). Vacate treated areas and ventilate before reoccupying. For maximum effectiveness, a combination of spot, surface treatment and fogging is recommended. Do not apply to classrooms while in use.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns and grounds.
