- Do not puncture or incinerate container.
- Store in a cool, dry place.
- Intentional misuse by deliberately concentrating and inhaling may be harmful or fatal.
- Refer to MSDS for additional safety information.

HMIS RATINGS

BUG OFF PRO

AEROSOL

DESCRIPTION:

BUG OFF PRO repels mosquitoes, chiggers, ticks, deer flies, stable flies, black flies, gnats and fleas on exposed skin and surfaces. For personal application and clothing.

DIRECTIONS:

Skin application for mosquitoes, biting flies gnats and fleas. Hold unit 4 to 6 inches from the skin of arms or legs while applying with a slow sweeping motion until surface is slightly moistened. Rub with hand to insure even distribution.

For protection against mosquitoes and biting flies, pay special attention to where biting through clothes occurs - shoulders, elbows, seat of trousers, front of trousers, front of thighs, knees and socks. For protection against chiggers (mites), fleas and ticks, pay special attention to the socks, shoe tops and fly, trouser leg cuffs, trouser fly and waistband, and the front fly and cuff fly of the shirt. Avoid contact with plastics, such as eyeglass frames, and such fabric as acetate rayon. Do not spray in enclosed area.

To apply to face and neck, spray in palm of hand in short bursts and spread on the skin. Do not apply over cuts, wounds or irritated skin. Do not apply to eyes and mouth and do not apply to the hands of young children. **DO NOT SPRAY DIRECTLY ON FACE.** Use just enough repellent to cover exposed skin and/or clothing. Do not use under clothing. Avoid overexposure. Frequent reapplication and saturation is unnecessary for effectiveness.

After returning indoors, wash treated skin with soap and water. Wash treated clothing. Use of this product may cause skin reactions in rare cases. If you suspect that you or your child is reacting to this product, wash treated skin and call your local poison control center. If you go to a doctor, take this repellent with you.
