

aerosol deodorants/disinfectants

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Jelled formula clings to vertical and irregularly shaped surfaces
- Slow releasing fragrance lasts longer than regular deodorant sprays
- Nonstaining gel evaporates completely
- Meets all current VOC standards
- 20 Ounce Can

TYPICAL PROPERTIES

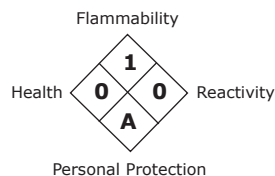

- Vapor Pressure: <17.5
- Boiling Range: 212 F
- Solubility: 98%
- Specific Gravity: 0.99
- Vapor Density: >1
- pH: N/A
- Evaporation Rate: <1
- Physical Description:
Clear gel w/mulberry odor

SAFETY CAUTIONS

- Keep out of reach of children
- Contents under pressure.
- Do not puncture or incinerate container.
- Do not store near heat, in direct sunlight or at temperatures above 120 F
- Refer to MSDS for additional safety information.

HMIS RATINGS

DEO GEL

Aerosol

DESCRIPTION:

This unique jelled deodorant is designed to be used anywhere offensive odors are a problem. The clinging gel allows product to be applied on horizontal, vertical and irregularly shaped surfaces. Its slow releasing formulation continuously provides fragrance for extended periods of time. Then, the gel will totally evaporate. Reapply as necessary. Ideal for use on hard, nonporous surfaces.

Spray on air conditioner filters, above doors, in trash receptacles and dumpsters, on walls, in port-a-toilets, above ceiling fans and behind toilets. Areas of use include homes, schools, offices, bathrooms, automobiles, trash cans, kennels, basements and closets. Counteracts odors caused by tobacco, garbage, animals, and cooking.

DIRECTIONS:

Shake well. Point towards area to be treated. Spray in a slow sweeping motion approximately 10 to 12 inches from surface. Product will continuously release pleasant fragrance and will totally evaporate over time. Reapply after product dissipates or when more odor control is desired.
