HMIS RATINGS

FLASH

DESCRIPTION:

FLASH is a multipurpose, mildly abrasive compound used to restore the finish on all metals and fiberglass. It removes oxidation and provides a long lasting protective film. However, like any other metal polish, it is not recommended for use on plated metals. FLASH contains no hazardous by-products or heavy metals.

DIRECTIONS:

METAL: Apply with soft or dry cloth. Rub lightly until black residue appears. Buff with clean cloth

PLASTIC: Apply polish with damp cloth. Buffing will remove light scratches.
