- Automatically Dispenses Around the Clock for up to 30 Days
- Complies with All Current VOC Regulations
- Non-Staining Dry Mist Leaves No Residue
- Fragrance Stays Suspended in Air to Provide a Pleasant Aroma in the Atmosphere

- 10 Ounce Can

## TYPICAL PROPERTIES

- Vapor Pressure: **N/A**
- Volatility: **N/A**
- Solubility: **Yes**
- Specific Gravity: **0.80**
- Vapor Density: **N/A**
- pH: **N/A**
- Evaporation Rate: **N/A**
- Physical Description:  
**Clear, colorless mist/spray w/pleasant fragrance**

## SAFETY CAUTIONS

- Keep out of reach of children.
- Store in a cool, dry place
- Do not use or store near heat, sparks or open flame.
- Refer to MSDS for additional safety information.

## HMIS RATINGS

## METERED AEROSOL AIR FRESHENERS

### DESCRIPTION:

METERED AEROSOL AIR FRESHENERS stop unwanted odors and deodorizes the air in bathrooms, kitchens and any other areas where a malodor exists. The metered valve delivers precise spray volumes in an ultra fine mist to effectively freshen rooms up to 6,000 cubic feet. Formulated to neutralize tough odors, such as sulfides (from eggs, garlic and onion), amines (from fish), and pyridine (from tobacco smoke). A fine spray pattern keeps areas smelling fresher longer. Recommended for use in schools, hospitals, institutions, lodging facilities, offices and other places where people gather. Comes in the following fragrances:

- Bayberry
- Cinnascent
- Fresh Cotton
- Honeysuckle
- Lavender
- Mango
- Ocean Breeze
- Peach
- Vanilla
- Wild Cherry

### DIRECTIONS:

Remove protective cap and install in an Automatic Aerosol Dispenser unit. Dispenser should be mounted 7 ft. from the floor and at least 8 ft. away from exposed foods. Position so that the concentrated spray will not hit people, animals, foods, drinks, feeds, food processing surfaces or solvent sensitive surfaces (such as polished or varnished materials). Use only in a well ventilated area. Avoid inhaling spray mist or vapor. This can contains 3900 controlled sprays for use in closed areas that will last for approximately 30 days when used on a 24 hour basis or 60 days if used 12 hours per day when set to dispense every 15 minutes.
