

liquid concrete removers

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Unique Concrete Stripper
- DOT Non-Corrosive
- Non-Flammable
- Non-Hazardous
- Efficient & Economical
- High Performance
- Minimal to No Fuming
- Biodegradable

TYPICAL PROPERTIES

- Vapor Pressure: **44**
- Volatility: **66**
- Solubility: **Yes**
- Specific Gravity: **1.141**
- Vapor Density: **8.68**
- pH: **0.8**
- Evaporation Rate: **Slower than ether**
- Physical Description: **Clear, red liquid w/acidic odor**

SAFETY CAUTIONS

- Store out of reach of children.
- Store in closed, labeled containers.
- Protect against heat and cold.
- Refer to MSDS for additional safety information.

HMIS RATINGS

ARROW-MAGNOLIA
International, Inc.

N VIRO WASH +

Liquid

DESCRIPTION:

N VIRO WASH + represents a breakthrough in concrete removal. It produces the cleaning power of concentrated Muriatic acid products with the safety and ease of use of a normal detergent product. It will handle the toughest of jobs quickly and efficiently and free your people from the fumes and danger of much harsher products. It can be used on the entire vehicle safely and economically.

Cleaning a larger area with less product is a function of our unique inhibiting system. This allows the product to spread as a result of being thicker. This new technology inhibitor attaches itself to the surface and leaves a protective coating that inhibits corrosion and helps concrete from adhering.

DIRECTIONS:

N VIRO WASH + can be diluted 10:1 with water depending on thickness for foam cleaning of concrete. The amount of dilution will depend on the thickness of the rust and concrete.

N VIRO WASH + should be applied by foaming spray equipment or applied by brush and bucket method. On difficult areas, brush agitation is always recommended.

When equipment is completely free of rust and concrete, rinse well with a diluted solution of BULLDOZER and water.

When completely dry, apply MIRROR KOTE for a 'stick free' protective finish.
