

Liquid flooring products

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Mop On Finish Restorer
- Will Not Discolor Floors
- Revives the Appearance of Floors
- Will Not Breakdown During High Speed Buffing

TYPICAL PROPERTIES

- Vapor Pressure: **32**
- Volatility: **88.5**
- Solubility: **Yes**
- Specific Gravity: **0.981**
- Vapor Density: **N/A**
- pH: **13.00**
- Evaporation Rate:
Slower than Ether
- Physical Description:
**Clear amber liquid w/
pleasant odor**

SAFETY CAUTIONS

- Keep out of reach of children.
- Use under normal atmospheric conditions in well-ventilated areas.
- Keep containers closed when not in use.
- Refer to MSDS for additional safety information.

HMIS RATINGS

NEW MOON

Liquid

DESCRIPTION:

Our high speed floor care system highlights this mop-on finish renovator for periodic cleaning. Used weekly, or more often if needed, this concentrated thermoplastic polymer emulsion will heal scratches, repair worn traffic lanes, and revive the overall appearance of your floors without buildup. Formulated for use in speed systems, this easy to apply restorer actually improves with buffing. The heat activated ingredients become a part of the original seal and finish foundation resulting in a hard, ultra brilliant surface. NEW MOON will not breakdown during high speed buffing and will not powder.

DIRECTIONS:

Dust mop floor to remove loose dirt and grit. Mix 5 ounces of NEW MOON with 3 gallons of cold water. Mop floor and allow drying for approximately 20 minutes. When it is completely dry, a soft haze will appear on the surface. Buff with a high speed or ultra high speed floor machine equipped with a buffing or polishing pad. For large areas, mop on finish restorer may be used with an automatic scrubber. This special polymer system will not build up yellow or discolor even the lightest floors.
