

liquid concrete removers

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Blended Fleet Cleaner
- Removes Concrete and Rust
- Washes Away Film, Oils and Grime
- Rapid Action
- No Damaging Effects on Paint or Similar Finishes
- Non-Hazardous

TYPICAL PROPERTIES

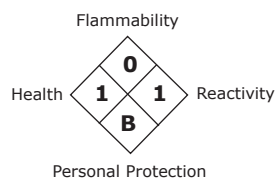

- Vapor Pressure: **36**
- Volatility: **73**
- Solubility: **Yes**
- Specific Gravity: **1.062**
- Vapor Density: **N/A**
- pH: **2.5**
- Evaporation Rate: **Slower than Ether**
- Physical Description: **Clear liquid w/characteristic odor**

SAFETY CAUTIONS

- Store out of reach of children.
- Store in closed, labeled containers.
- Store in original containers.
- Protect from freezing and heat.
- Shelf life is one year.
- Refer to MSDS for additional safety information.

HMIS RATINGS

PHOS-4-BRITE

Liquid

DESCRIPTION:

PHOS-4-BRITE is a special blend of agents designed to provide maximum cleaning performance with safety and ease of use for concrete industry fleets. When used with the MILLENNIUM ARCH, It is extremely efficient, reaches the "impossible to clean" areas and delivers superior performance.

PHOS-4-BRITE helps clean and remove of all the cleaning issues with fleets: concrete, cement, film, road grime, rust, oils and grease. Unlike other acid-based cleaning compounds, it is also safe enough for everyday use and handling.

DIRECTIONS:

PHOS-4-BRITE should be diluted with water for normal cleaning of rust and concrete. It can be diluted up to 6:1 with water for light-duty use. The amount of dilution will depend on the thickness of the rust and concrete.

PHOS-4-BRITE should be applied by the MILLENNIUM SPRAY ARCH equipment. On difficult areas, brush agitation is always recommended.

When equipment is completely free of rust and concrete, rinse well with a diluted solution of BULLDOZER. Equipment should be thoroughly rinsed.

When completely dry, apply MIRROR KOTE or GLAYZIT 2000 for a beautiful protective finish.
