

powder flooring products

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Maximum Strength Concrete Cleaner
- Fast Acting Granular Detergent
- Quickly penetrate and emulsify oily and greasy soils

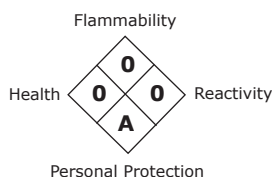

TYPICAL PROPERTIES

- Vapor Pressure: **N/A**
- Volatility: **N/A**
- Solubility: **Yes**
- Specific Gravity: **7.84 LBS/GAL**
- Vapor Density: **N/A**
- pH: **10.5-11.5**
- Evaporation Rate: **N/A**
- Physical Description: **Orange to Green in Solution with E/odor**

SAFETY CAUTIONS

- Keep out of reach of children.
- Use under normal atmospheric conditions in well-ventilated areas.
- Keep containers closed when not in use.
- Refer to MSDS for additional safety information.

HMIS RATINGS

REMOVE

Powder

DESCRIPTION:

REMOVE is a fast acting granular detergent designed for use on concrete and unfinished wooden floors. The special wetting agents quickly penetrate and emulsify oily and greasy soils. REMOVE when diluted in water contains a Built-In Indicator to show strength of solution.

DIRECTIONS:

REMOVE may be used in either of the following methods depending on which is more convenient for the job at hand.

1) Wet floor area to be cleaned, then sprinkle REMOVE over the area to be cleaned. Allow to stand for 5 to 10 minutes, then scrub with stiff brush. Rinse the area and allow to dry.

2) Prepare a solution in a mop bucket by adding 2 to 4 ounces per gallon of water. The concentration of the solution should be in direct degree to the amount of soil present on the floor. Mop the solution on the floor and allow it to stand 5 to 10 minutes, then scrub with a stiff brush. Rinse floor area and allow to dry.
