- Pleasant Lemon Fragrance

TYPICAL PROPERTIES

- Vapor Pressure: **N/A**
- Volatility: **N/A**
- Solubility: **Slight**
- Specific Gravity: **N/A**
- Vapor Density: **N/A**
- pH: **N/A**
- Evaporation Rate: **N/A**
- Physical Description: **Slightly off-white powder w/pleasant fragrance**

SAFETY CAUTIONS

- Store in non-hazardous plastic containers.
- Do not store near heat or flame. Keep away from corrosives.
- Refer to MSDS for additional safety information.

SPONGE SORB

Powder

DESCRIPTION:

SPONGE SORB is a powdered absorbent designed to clean virtually any type of liquid spill. Sprinkle over spill and within seconds, SPONGE SORB will absorb up to 100 times its weight in liquid.

What was liquid becomes a tidy congealed semi-solid, easy to shovel, take up on a dust pan or any handy cardboard. Makes clean ups much easier, faster and more pleasant, especially since it devours all odor. Scented with a pleasant lemon fragrance.

Eliminates drippy mops, towels and swab rags.

Ideal for spills, broken containers of food, drinks, chemicals and anything liquid. Vomit, urine, blood any health care facility liquid. Accumulations of liquids in bottoms of trash receptacles.

DIRECTIONS:

Sprinkle lightly over liquid to be removed, wait until gel is formed (approximately 1 minute), then pick up with a dustpan or cardboard. The finished liquid may be flushed down any sink or drain. Because it is water soluble, clean up is an ease. To clean brooms, mops, or other implements, just wash in water.
