

# liquid polishes/protectants

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

## HIGHLIGHTS

- One Step Wash and Wax Formulation
- Non-Toxic, Non-Hazardous
- Non-Flammable, Non-Corrosive
- Completely Biodegradable
- Excellent Sheeting Action
- Concentrated and Economical

## TYPICAL PROPERTIES

- Vapor Pressure: **31**
- Volatility: **84**
- Solubility: **Yes**
- Specific Gravity: **1.07**
- Vapor Density: **N/A**
- pH: **7.0**
- Evaporation Rate: **Slower than Ether**
- Physical Description: **Clear blue liquid w/ characteristic odor**

## SAFETY CAUTIONS

- Keep out of reach of children.
- Use under normal atmospheric conditions in well-ventilated areas.
- Keep containers closed when not in use.
- Refer to MSDS for additional safety information.

## HMIS RATINGS

# WASH-N-WAX

Liquid

## DESCRIPTION:

WASH-N-WAX is the result of exhaustive research and testing that surpasses any petroleum-based cleaner and degreaser.

A water soluble, biodegradable, non-flammable, non-toxic concentrate, it may be used in pennies-per-gallon dilutions to out-perform other cleaners. Pleasantly scented and stainless, it leaves no oily film or residual gumminess. Safe to use on metals, electrical insulations, and most painted and plastic surfaces, it will pay for itself in its virtually unlimited applications by replacing many obsolete degreasers with one all purpose concentrates.

Can be used as: Aircraft Surface Cleaner; Pulling Unit Wash; Tool Cleaner; Steam Cleaner; Pressure Wash Cleaner; Floor & Wall Cleaner; Car Wash; Oil Spill Remover; Down Hole Viscosity Breaker & Reduces Pumping Pressure; Thinning Viscosity in Sludge Pit; Crude Oil Cleaner; and Rig Wash.

## DIRECTIONS:

**General Cleaning:** Use 20 parts of water to 1 part of WASH-N-WAX. Proper dilution can be determined through actual practice and use of the product. Can be applied with a spray gun or by rag or brush hand application. On heavy build-up, rag or brush will aid cleaning. Just hose off and let dry.

**Steam Cleaning:** Prepare solution in tank using 1 gallon of WASH-N-WAX per 60 gallons of water. Actual use will determine final proper amount. Amounts of degreaser will vary with the job. This degreaser completely removes all grease and oil while anodizing the surface to retard rusting. Will not corrode aluminum or aluminum alloys.
