

liquid concrete removers

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

ARROW-MAGNOLIA
INTERNATIONAL, INC

SINCE 1927

HIGHLIGHTS

- Polished Aluminum Cleaner
- Contains No Harsh Acids
- Non Hazardous, Non Toxic
- Non Flammable, Non Corrosive
- Completely Biodegradable
- Easy To Use

TYPICAL PROPERTIES

- Vapor Pressure: **40**
- Volatility: **74**
- Solubility: **Yes**
- Specific Gravity: **1.064**
- Vapor Density: **N/A**
- pH: **1.4**
- Evaporation Rate: **Slower than Ether**
- Physical Description: **Cloudy**

Liquid w/ Characteristic Odor

SAFETY CAUTIONS

- Keep out of reach of children.
- Use under normal atmospheric conditions in well ventilated areas.
- Keep containers closed when not in use.
- Refer to SDS for additional safety information.

ALUMINUM BRITE SOPA

LIQUID DESCRIPTION:

ALUMINUM BRITE SOPA represents a real innovation in the cleaning of polished aluminum surfaces. For too long, people had to choose between harsh and dangerous acid formulations or weak, ineffective soap products that did not do the job. Most aluminum brighteners will burn polished aluminum, requiring expensive hand polishing, but not ALUMINUM BRITE SOPA.

When used according to the directions, this product will do an outstanding job of removing soils and buildup on polished aluminum and help restore the shine to the polished surface. It is also excellent at removing road film and carbon exhaust.

DIRECTIONS:

- Apply solution to surface to be cleaned with brush or sprayer, working in small sections from the bottom upward to avoid streaking.
- Mechanical agitation with a brush or mop provides the best results but be sure to use brushes that will not scratch surface.
- Allow solution to remain on surface for 3 to 5 minutes but do not allow surface to dry out during application. Make certain that all traces of solution are rinsed away with a properly diluted mixture of FLEET WASH or similar product after use.
- For best results dilute ALUMINUM BRITE SOPA 1:1 with water prior to use. It can be used up to 10:1 with water for lighter duty jobs and undiluted for heavier duty jobs. Always use clean water when washing delicate surface.
